

Easy drive-on, drive-off launching and loading.

Make a splash!

Introducing the Latest from ShoreStation - JetStation Floating PWC Storage

This stylish floating platform offers the ultimate in convenient storage for your personal watercraft. The versatile mooring kit options allow it to work with ShoreStation Floating or Stationary Dock systems, as well as universally with other dock systems. The rugged, maintenance-free design will look great and last for years, just what you'd expect from ShoreStation.

Check out these special features:

Fits a Variety of PWCs

Universal hull support and a beefy 1,625 pound capacity allow it to fit a wide variety of PWCs, even the big 3-person machines. The adjustable inline rollers can be raised or lowered to fit different hull styles.

Stylish & Maintenance-free

The durable poly platform is molded in an attractive sand beige color that compliments any waterfront. It is designed to stand up to rough conditions and look great for years to come.

Smooth, Drive-on, Drive-off Design

The non-marking Keel Roller and In-Line Rollers make launching and loading easy and hassle-free.

Versatile to Fit your Waterfront

Unique mooring options allow side-mount or front-mount installations, so you can arrange your JetStation to fit your dock. You can even mount multiple platforms side-by-side to store multiple PWCs.

Bumpers For Added Safety

The sturdy Dock Bumpers (included in the ShoreStation Dock Mooring Kits) provide a safe hand hold, as you step on and off the platform.

Front-Mount Option

Works great for applications with limited dock space or multiple PWCs.

Side-Mount Option

Provides easy step-on access to your dock.

Choose Your Mooring Kit
Available to fit ShoreStation **Floating** (shown above) or **Stationary** (shown at right) dock systems, or choose the **Universal** kit for attaching to other fixed or floating dock systems.

MODEL #	DESCRIPTION	WEIGHT CAPACITY	OVERALL WIDTH	OVERALL LENGTH	SHIP WEIGHT
