

## Your Memories. Crafted.

Designed to handle some of today's largest personal watercraft available, our PWC Lifts support crafts up to 1500 lbs. Built with convenience and safety in mind, four available storage options allow you to choose your lift storage location while saving you space. ShoreStation PWC Lifts get you on and off the water quickly and safely, allowing you more time to perfect your craft.

### ULTRABUNKS

Pivoting maintenance free aluminum/poly bunks are mounted on sturdy support channels to shoulder the load.

Choose  
From 4  
Different  
Styles

### VERTICAL

SSV1564M

Our vertical lift design can handle deeper water and your largest crafts - up to 5'6" deep and 1500 lbs.

- Same great quality as our larger lifts with ShoreStation's time-tested vertical lift system and low maintenance aluminum construction
- Available in manual or electric
- Comes standard with 2 wireless remotes to raise & lower your lift
- "V" cradle design for shallow water operation
- Self-adjusting pivoting UltraBunks cradle watercraft's hull

### CANTILEVER

SS10621

This aluminum constructed cantilever style PWC lift can handle watercrafts up to 1,000 lb.

- 30" operator's wheel and brake winch provides safe, smooth operation
- Heavy-duty aluminum frame and posts for larger watercrafts
- Self-adjusting pivoting UltraBunks cradle watercraft's hull
- Also available with 4 legs for deeper water, electric drive winch, or optional canopy

### CANTILEVER TWO-PLACE

SSD10521

This is no ordinary boat lift. The two-place Free-standing PWC lift has space for two 1,000 lb. machines.

- Independently operated lift platforms and operator's wheel with brake winches for smooth operation
- Self-adjusting pivoting UltraBunks cradle watercraft's hull
- Designed for years of dependable service with corrosion resistant aluminum construction, thermoplastic pulleys and stainless steel bearing surfaces
- Also available with an optional canopy or electric drive winch

### DOCK MOUNT

SS1053

This Aluminum Dock Mount lift features a space saving footprint and convenient boarding access from the dock for up to 1,000 lb.

- Mounts to ShoreStation Classic Sectional Dock, ShoreBridge or most standard docks
- Geared brake winch with nylon strap and level-lift cable provide safe, unbinding up-down operation
- Optional electric drive winch
- UltraBunks provide solid support
